

NUMSTEP: CUBE

a Puzzle by Ben Cornish

09 September 2026

HOW TO PLAY

Complete the continuous path through every white cube.
The path begins at 1 and proceeds through consecutive numbers.
Each number must be directly connected to the previous number.
You may move horizontally, vertically, or between adjacent layers.
Every white cube must be used exactly once.
Black cubes cannot be entered.
The numbered clues (1 and multiples of 10) are fixed and cannot be moved.

LAYER 1 (Top)

		20
10		

LAYER 2

	1	

LAYER 3 (Bottom)

LAYER 1 (Top)

22	9	10
21		11
20		12

LAYER 2

7	8	3
18	1	2
19		13

LAYER 3 (Bottom)

6	5	4
17	16	
	15	14
